## Federal-Local Fund Sharing, Misnomer; It's Really Dept Sharing

As one who consistently opposes the idea of letting minor units of government spend money they didn't have the nerve to raise with local taxation this editor applauds Congressman Wilbur D. Mills' attack on the Nixon administration Tuesday because of its plan to share federal tax revenues with state and local government.

The federal deficit grows, the federal debt climbs ever higher—and the "sharing" that is proposed is sharing of debt, not money.

Federal give-away programs are the biggest fraud in American history, added costs due to federal participation cancelling out the benefits to the recipient community.

And now comes the threat of an even greater fraud—wasting federal revenue by placing it in the hands of state and local officials. Only those who levy taxes have the moral right to spend tax money. Delegating spending power to minor units of government degrades them to the level of a pauper.

Nixon's revenue-splitting notion has two certain effects:

1. It would further weaken the self-reliance of state and local government, and

2. It will raise the national debt far beyond its present astronomical height.

If we have been threatened with a taxpayers' revolt in the past the new Nixon proposal is a guarantee there will be a concerted drive against all taxes in the future.

Spelled out, this means governmental bankruptcy and galloping inflation.

Government itself doesn't go broke—but its people do.

The remedy is obvious: Cut federal spending, eventually reduce federal levies—and put state and local government "on their own."

## U.S. Steel Earnings 40% Down

NEW YORK (AP) — U.S. steel Corp., the nation's largest steel producer, reports its fourth quarter 1970 earnings were down 40 per cent from the year earlier period. For the year, net income was down 32 per cent from 1969.

The company said Tuesday that net income was \$147.5 million or \$2.72 per share in 1970, against \$217.2 million or \$4.01 per share in 1969. Sales for 1970 were \$4.88 billion compared to \$4.82 billion in 1969.

The decline in earnings was roughly in line with the figures reported by Bethlehem Steel Corp., Republic Steel Corp. and National Steel Corp., the second, third and fourth largest domestic steel producers respectively.

U.S. Steel blamed the profit squeeze on lower steel product shipments resulting from the General Motors strike, the general economic slowdown and rising imports in the second half of the year.

## Roebuck Due to Direct State AIDC

LITTLE ROCK (AP)—James Daniel Roebuck, 36, an official with Arkansas-Best Freight System Inc. at Fort Smith, will be named executive director of the Arkansas Industrial Development Commission, The Associated Press learned today.

Sources close to Gov. Dale Dale Bumpers said Roebuck would take office about March 1, filling the vacancy created by the resignation of Adrian Williamson Jr.

## Bond Issue Is Defeated

FAYETTEVILLE, Ark. (AP) —Washington County voters defeated a \$1.65 million bond issue Tuesday that would have financed construction of a county airport at Tonitown near here.

Apollo 14's lunar target is the Fra Mauro area, a rough crater formation originally selected for the aborted Apollo 13 mission. The actual landing site is a valley between two ridges which, scientists believe, may be formed of debris thrown out billions of years ago when a meteor struck the Sea of Rains, 300 miles to the north and the site of the Soviet unmanned landing last November of Lunokhod-1, first wheeled vehicle on the moon. The first American vehicle is scheduled to reach the moon aboard Apollo 15, next July. Previous American manned landings were Apollo 11 (July 20, 1969) and Apollo 12 (Nov. 19, 1969).

## Whole Sale Prices Take Sharp Jump

By NEIL GILBRIDE

WASHINGTON (AP)—Wholesale prices took the sharpest jump in a year this month, largely because of a big boost in farm prices, the government reported today.

The Labor Department said the Wholesale Price Index rose six-tenths of one per cent in January, largest increase since a rise of seven-tenths in January of 1970.

The report is preliminary, subject to change when more detailed figures are available later.

The reported rise indicated unsettling news for President Nixon's hopes that the nation's worst inflation in two decades was abating.

However, the bulk of the increase was in wholesale food prices which are frequently subject to sharp fluctuations as the result of weather and production factors. And the overall level of wholesale prices of food and a broad range of industrial raw materials was still only 2.2 per cent above a year ago, the smallest annual spread in about

## Just a Few of Things That a Lot of Folks Could Do Without

By HAL BOYLE

NEW YORK (AP) — Some things we could do without: Haircuts that make girls look like sheepdogs.

People who do the planning for planned obsolescence.

Anybody who buys a sauna bath with the idea it will serve him as a conversation piece the rest of his life.

Street cart peddlers who charge 35 cents for a hot dog so skinny you'd think it had been on a three-week starvation diet itself.

Decaying snow.

Men's neckties wider than the smile of a hippopotamus.

Steak tartar, artichokes and tapioca pudding.

All reminiscences of gall bladder operations. Memoirs of people who adopted strange pets, such as octopuses or aardvarks.

Anything which you don't need but which you can get two of if you fork up another penny.

Girls who try to practice on you the charms they learned at a charm school.

Young mothers with nicotine-yellowed fingers.

## Legislative Report on Redistricting, Liquor Law, Other Issues

By MACK McLARTY

State Representative Hempstead County.

The Arkansas House is now into its third week of the 60-day session and has already passed some fine legislation. Governor Bumpers' "reorganization" program has passed the House and is now in the Senate. I was pleased to address the House for the first time as a newly-elected Representative in support of the Governor's program. The bill received 92 votes supporting reorganization, and only four dissenting. Also passed by an overwhelming majority was the Governor's bill to repeal the so-called "fair trade" liquor law.

Other bills passed by the House last week include: prohibition against the use of cash funds for construction by state agencies without legislative approval; a requirement for political candidates to make public their primary expenditures; and a prohibition against the leasing of data processing equipment by state agencies without approval of the State Administration Department. The final bill was another example of the way the legislature is trying to cut down the cost of operating our government and yet maintain efficiency. Almost every

department has its own data processing equipment, even though it is leased. The House felt that central data processing equipment administered by one department would better serve the needs and economies of state government.

The Effect of Redistricting Many of you have inquired as to the effect of the 1970 census on our Congressional Representation. As you probably know, the results of the census made it imperative that some redistricting of counties occur so that an equitable balance of population would exist in each district. Last week the four Arkansas Congressmen agreed upon the "Alexander Plan" offered by 1st District Congressman Bill Alexander. Under this plan Hempstead County would now fall into the fourth congressional district, represented by Congressman David Pryor. I have talked to both Congressman Pryor and Congressman Hammerschmidt and offered my full assistance to them both in the redistricting

Weather to Continue to Be Cold By THE ASSOCIATED PRESS Cold weather is expected to continue in Arkansas through Thursday.

An arctic high pressure system moved into the northern portion of the state Tuesday morning and reached the southern border by mid-afternoon. As a result, temperatures Tuesday night were below freezing across the state. Even colder temperatures are expected in many areas of the state tonight as a high moves into the state from South Dakota.

There will be little change in temperatures Thursday with highs mostly in the 50s. Highs today were forecast in the 30s northeast to upper 40s and low 50s extreme south and west.

No precipitation is expected through the weekend. Mild temperatures are expected Friday, but colder readings are forecast for Sunday.

Overnight lows include Fayetteville 19, Harrison 17, Jonesboro 21, Pine Bluff 31, Texarkana 32, El Dorado 29, Memphis 23, Little Rock 27 and Fort Smith 23.

No precipitation was reported during the 24-hour period ended at 6 a.m.

## Redistrict Plan Sent to Bumpers

By ROBERT SHAW

LITTLE ROCK (AP) — A plan favored by U.S. Rep. Bill Alexander to redraw the state's four congressional districts received final legislative approval Tuesday, but the Arkansas General Assembly may not have yet disposed entirely of the redistricting issue.

The House completed legislative action on the so-called "Alexander plan" on a vote of 89-0 without debate and sent the legislation to Gov. Dale Bumpers for his consideration. The bill, sponsored by Sen. John F. Bearden Jr. of Leachville, had passed the Senate 27-5 last week.

After the House vote Tuesday, Sen. Bill H. Walmsley of Batesville said he planned to pursue later in the session his own proposal for redistricting

## Mills Offers Own Revenue Sharing Plan

WASHINGTON (AP) — Congressional hearings on sharing federal revenues with states will include not only President Nixon's plan but a wide variety of alternatives which may stand a better chance.

This was assured after Rep. Wilbur D. Mills, D-Ark., chairman of the House Ways and Means Committee, laced into the presidential proposal in an hour-long speech Tuesday.

Mills, whose committee has the first and most important say on such matters, contended the \$16-billion Nixon revenue-sharing plan is wasteful, contains no assurance that the most needy and deserving units will get a fair share—and that it could encourage spending and force a federal tax increase.

But Mills, acknowledging some states and cities have severe financial problems, said Congress should explore various ways to help.

The committee's present plan, it was learned, is to delay until late this year any hearings on Nixon's proposal, and then to conduct them as a broad examination of federal, state and local fiscal problems and possible solutions.

Opponents of the Nixon plan, like Mills, calculate that by then the current campaign of support, largely among governors and local officials, for revenue-sharing along the Nixon lines may have subsided and alternatives may look more attractive.

## Heart Fund Drive Headed by Mrs. Young

Appointment of Mrs. George Young, 1505 South Pine Street in Hope as chairman of the 1971 Heart Fund Campaign in Hempstead County was announced here today by W. Sexton Lewis, M.D., President of the Arkansas Heart Association. The campaign will be conducted here, and in more than 8500 other American communities, throughout February.

The chairman will be assisted by Miss Mavis Slaton, 705 East 14th Street, Hope as Publicity Chairman. Announcement also was made that Mrs. Greta Gough at the Citizens National Bank will serve as Chairman of Bequests and Memorials. Other community chairmen will be announced later.

The Heart Fund drive will reach its high point during the seven day period starting February 21, when Heart Sunday volunteers in all residential areas will visit their neighbors to deliver educational information on the warning signs of heart attack and to receive Heart Fund contributions.

## Not Everyone Buying Nixon Plan to Share Finances With States

By FRANK CORMIER

WASHINGTON (AP) — "Coming on like gangbusters" is a trite phrase, but it fits President Nixon's current efforts to sell Congress and the voters on his 1971 "power to the people" program.

Not everyone in this town where Democrats control Congress is buying the Nixon blue print for shunting 16 billion taxpayer dollars to the states—to do with generally as they wish and to cut the 12 Cabinet departments down to eight.

But Nixon is trying. He really is. Some Democrats suggest the President doesn't really expect to get what he seeks but, rather, is trying to build a campaign issue for 1972.

Nixon press secretary Ronald L. Ziegler says his boss is "not looking for an issue but for bipartisan action."

Toward this end, Nixon and Vice President Spiro T. Agnew plan to tour the country in the months ahead to drum up popular support.

While it already is apparent the administration's revenue-sharing plan, his No. 1 program, is in deep trouble in Congress, Nixon these days seems positively jaunty.

The President apparently is counting on governors and mayors of financially hard-pressed states and cities to create for him a "people's lobby."

The hope is apparently that citizens in many states may lock arms behind the Nixon program as offering the best hope of avoiding higher state taxes.

By all accounts, Nixon consulted least with the Democrats who control Congress before springing his \$16 billion surprise in Friday's State of the Union address.

Since then, however, he has invited just about everyone who counts in the congressional leadership and on concerned committees to visit him and hear the administration's arguments for his plan.

But the "selling job" really began with the news media. Starting at 9:30 Friday morning, almost 12 hours before most members of Congress were clued in, selected reporters and columnists showed up at the White House to hear the administration's sales pitch.

From a news stand point, perhaps the most productive of the "backgrounders" was arranged by Agnew's office. Eight selected reporters attended and not only were briefed on the State of the Union address but were given a much-sought-after administration secret—the size of the federal budget for the fiscal year that begins July 1.

The spending figure: A record \$229.2 billion. The on-paper deficit: Somewhere between \$10 billion and \$11 billion.

Southern State College golf Coach, Jim Kimbell, is optimistic about prospects this year although he has only one returning letterman, Richard Fenwick Jr. of Camden . . . young Fenwick would just have to be a good golfer . . . folks here can recall his father grew up on the local golf course as did most of the Fenwick family in Hope.

Mr. and Mrs. Grover Thompson took Mr. and Mrs. Ray Talbot to Dallas Monday where the Talbots boarded a plane for Kodiak Island, Alaska . . . Mrs. Talbot is the former Barbara Thompson of Hope . . . Mr. Talbot, a recent graduate of NE Louisiana School of Pharmacy, will be in charge of a pharmacy in a new hospital on Kodiak Island.

Mr. and Mrs. J. W. Secrest of 517 South Hervey are celebrating their 64th wedding anniversary today.

## Cambodians Try to Halt Enemy Drive

By ROBIN MANNOCK

Associated Press Writer PHNOM PENH, Cambodia (AP) — Thousands of Cambodian troops fanned out to the west and northwest of Phnom Penh today in a drive to break up North Vietnamese and Viet Cong troop concentrations threatening the city.

The Cambodian military spokesman said "many more than 20 battalions" were participating, but there was no report on their progress. A battalion averages about 400 men at full strength.

The enemy kept up attacks on posts out from the Cambodian capital, hitting the village of Bat Doeung 15 miles to the northwest and the town of Saang 19 miles to the south during the night.

The spokesman said Cambodian troops held off the Communist forces at Bat Doeung all night but fighting was continuing at dawn. He said planes called in against the attackers at Saang sank a large number of sampans which had been used to transport the North Vietnamese and Viet Cong troops on the Bassac River.

Cambodian units launched a counterattack today and were battling several hundred enemy troops about a mile north of Saang, the Cambodian high command reported.

The spokesman claimed that the military situation around Phnom Penh had "clearly improved," and tension appeared to be easing as the city's Chinese and Vietnamese residents celebrated Tet, the festival of the lunar new year. But in contrast to the usual noisy firecrackers, they were celebrating quietly at home.

The military spokesman said that despite the improvement in the local situation, there are no plans to relax the nightly curfew. "We'll see about the curfew after Tet," he said.

In Saigon, the 7th Air Force announced that U.S. planes have flown more than 1,400 tons of ammunition, 22,000 gallons of fuel and 60 tons of equipment to Phnom Penh since Nov. 12 as part of the military assistance program.

## Health Program Rates May Be Revised

The City Board of Directors met for its regular meeting January 26th. Certificates of service were presented to Clyde Fouse and Dr. Lester Stitz by Mayor Sam Strong for their 4 years service on the City Board of Directors.

H. L. Washington, who is in charge of the Cave Hill Cemetery, and a group of citizens interested in the cemetery reported on the financial and physical condition of the cemetery. The Board asked that Mr. Washington and City Manager Garland Medders meet and determine the extent of help needed and then action by the Board can be taken.

Charles Key, Sr. asked the Board for a longer term lease on the airport property that he has rented for several years on a yearly basis after his lease expired three years ago. Terms of the lease will be worked out and action will be taken by the Board.

Haskell Jones, President of the Retail Merchants Association, explained a plan that his organization had for downtown employees parking their cars. The Board gave tentative approval to the plan, but asked Mr. Jones to talk to his group again about some of the details.

A review of Health Program charges was made and a special meeting will be called to set new rates. More information about new regulations on sanitary land-fill operations will necessitate new equipment. Cost of equipment has not been determined and will have to be determined in setting of the new rates.

**MRS. MILDRED J. BLAKLEY**  
Mrs. Mildred Jackson Blakley, 63, of Blevins, died Monday in a Texarkana Hospital. She was a member of the Assembly of God Church and an employee of Corn Belt Hatcheries.

She is survived by her husband, Raymond Blakley; three daughters, Mrs. Willis Lee of Okolona, Mrs. Wally Simmons of Delight, Mrs. Charles Geurin of Hot Springs; six brothers, Herman and Henry Jackson of Maning, Ark., Harold Jackson of Red Bluff, Calif., Herbert Jackson of Arkadelphia, Harley Jackson of Prescott and Homer Jackson of Oklahoma City; five sisters, Mrs. Charley Gentry of Okolona, Mrs. Margie Gentry of Prescott, Mrs. Andrew Jones of Gurdon, Mrs. Homer White of Nashville and Mrs. J. D. Ferguson of Arkadelphia.

Services will be held at 2 p.m. Thursday at the Assembly of God Church in Delight. Burial will be in Weir Cemetery at Okolona by Murry-Ruggles Funeral Home of Arkadelphia.

**ELMER BRAKEBILL**  
Elmer Brakebill, 72, a resident of McCaskill, died Wednesday in a local hospital. He was a farmer.

He is survived by his wife, Mrs. Avis Brakebill; a son, Orville Brakebill of Pine Bluff; a daughter, Mrs. Oleta Hutt of South Bend, Ind.; two sisters, Mrs. Ethel Ball of Fontana, Calif., Mrs. May Haag of San Antonio, Texas.

Funeral services will be at 2 p.m. Friday at Friendship Church by Rev. Bruce Beene with burial in Harris Cemetery by Herndon Funeral Home.

**NEW YORK (AP)** — Charles H. Tuttle, 91, former U.S. attorney who ran unsuccessfully against Franklin D. Roosevelt for governor of New York in 1930, died Tuesday. Tuttle, a Republican, was a member of the New York City Board of Higher Education for 50 years.

**CLEVELAND, Ohio (AP)** — K. Elmo Lowe, 71, former actor who retired in July 1969 as director of the Cleveland Play House, died Tuesday of a stroke. Lowe had played numerous roles from 1921 until 1958 when he became Play House director.

**Another Is Executed in Guinea**  
**DAKAR, Senegal (AP)** — Guinea's official radio reported today the execution of another person convicted of involvement in the invasion of the West African country in November.

The broadcast by Radio Conakry said the hanging of "an element of the fifth column" took place at Kindia, about 60 miles northeast of the capital. The identity of the person was not given.

Informants in Conakry reported four persons were hanged from a bridge on a main street in the capital on Monday.

## 'City Killer' Law Repeal in House

**LITTLE ROCK (AP)** — A bill that would repeal the so-called "city killer" law and establish new procedures by which municipalities could annex territory was introduced Tuesday in the Arkansas House.

The bill would permit a municipality to annex land by ordinance, but residents of either city or the area to be annexed could petition to refer the ordinance to a vote.

If a referendum election is held, annexation would be approved if supported by a majority of the combined vote of those voting in the city and those voting in the area to be annexed.

Under the 1969 "city killer" law, annexations must be approved in separate votes of city dwellers and residents of the area to be annexed. A majority in either area could veto annexation.

Rep. Jim Linder of West Helena introduced a bill that would repeal the 1967 law that established the staggered motor vehicle licensing procedure under which motorists could renew their licenses by mail.

Linder's bill would return the state to the licensing procedures in effect before the enactment of the 1967 law. Vehicles would have to be registered annually from Jan. 1 to Feb. 15.

Rep. A. J. Troxell of Greenbrier introduced a bill to exempt prescription drugs from the 3 per cent sales tax.

Gov. Dale Bumpers had talked during last year's campaign about exempting prescription drugs from the tax, but Troxell said his measure was not an administration bill.

Troxell also introduced a bill to levy an additional 3 per cent sales tax on the sale of beer, wine, liquor and any other intoxicating beverage.

Rep. W. E. Beaumont Jr. of Little Rock introduced a proposal to set minimum standards required for the incorporation of a municipality. Under the bill, no area within three miles of an existing municipality of more than 5,000 population could incorporate. No area within one mile of any other city or town could incorporate.

To be eligible for incorporation, an area must have a resident population of at least 200 persons or an average resident population of 200 persons per square mile for the total area.

## Constitutional Amendments Are Offered

**LITTLE ROCK (AP)** — A special committee appointed by Gov. Dale Bumpers submitted five constitutional amendments to the governor Tuesday, including four that make comprehensive changes in the present Constitution.

Bumpers apparently will recommend three of the amendments to the legislature which is permitted to refer three constitutional amendments to the voters in the 1972 general election.

Here are the committee's proposals, ranked by priority: —Authority for the General Assembly to refer up to eight constitutional amendments every two years instead of the current three.

—Extension of voting rights to 18 year olds in state and local elections and several minor revisions of voting provisions.

—Reforms in county government, including four-year terms for elected officials, removal of the salary limits, a reduction in the size of quorum courts and stronger legislative powers for quorum courts.

—Revisions in the legislative article of the Constitution, including giving the General Assembly the power — subject to certain restrictions — to set the salaries of elected state officials and legislators, requiring a three-fifths vote to pass all tax bills, requiring a three-fifths vote to override a governor's veto, permitting annual regular sessions of the General Assembly and requiring the legislature to be apportioned into single-member districts.

—Revisions in the executive branch article of the Constitution giving elected state officials four-year terms, limiting governors to two terms in succession, removing the salary limitations and making other changes affecting the order of succession, the removal of board and commission members and the legal disability of the governor.

Searcy and Bernice Kizer of Fort Smith introduced a bill to authorize the use of electronic voting systems such as Votomatic in state elections. Sen. Bill Walmsley of Batesville submitted a similar measure to the Senate.

## Winter Storm Leaves Trail of Damage

**By THE ASSOCIATED PRESS**  
A fierce winter storm that left a trail of damage from the Midwest to the Atlantic paralyzed parts of western New York with a near blizzard today and numbed the nation's midsection with zero cold.

All roads in New York's three westernmost counties were blocked by deep and drifting snow Tuesday night. Troopers near Buffalo even withdrew highway patrols except for emergencies.

The New York State Thruway was closed from just west of Rochester to the Pennsylvania line, 125 miles.

Wind gusts of 60 miles an hour frustrated snow-removal efforts. Gusts up to 80 miles an hour battered the Buffalo suburb of North Tonawanda.

In neighboring Ontario, a blizzard closed many major highways Tuesday and left more than 12,000 school children stranded in rural school buildings and nearby farmhouses.

London, Woodstock and Barrie were termed "completely isolated" late Tuesday.

The storm walloped much of Upper and Lower Michigan and Ohio earlier Tuesday. All roads were closed for a time in 13 Lower Michigan counties.

Winds ranging far out from the storm system spread damage from the Mississippi Valley to the Middle Atlantic States.

Winds of 60 miles an hour hit hard at the Virginias where uprooted or broken trees caused numerous temporary highway closures.

The wind destroyed three house trailers in Page County, Va. One trailer with four persons inside was overturned and slammed down on a nearby road, but no one was injured seriously.

Gale warnings flew over all the Great Lakes and along the Eastern Seaboard from the Middle Atlantic States northward.

Gusts of 50 miles an hour were general along the New England coast.

The storm pulled an intense wave of arctic cold deep into the Plains and Midwest and brought freezing temperatures to the Deep South, hit only a week ago by a record January chill.

Temperatures fell near zero or below from the Dakotas to Upper Michigan and south almost to the Ohio Valley.

## County Farms Using More Fertilizer

**Hempstead County farmers** used a total of 4,240 tons of commercial fertilizer from July 1, 1969, through June 30, 1970. This is quite a large tonnage and is a one-third increase over the previous year, but does not reflect the overall picture on fertilizer use for the county, says W. R. Vandivere, associate county Extension agent.

The difference, he said, is the use of a tremendous amount of chicken litter on farms in the county. Most of this, of course, is applied to pastures.

Hempstead County is listed as one of the major poultry producing counties in Southwest Arkansas. According to the Arkansas County Agents

the danger of avalanches in the Olympics and Cascades was extreme and it urged motorists to stay out of mountain passes

Only one filly has ever won the Kentucky Derby—Regret in 1915.

Assuming that an average of 3 tons per acre is applied each year, this makes a total of 12,611 acres fertilized each year with litter. Considerable litter is also supplied by the laying industry.

**Young Martin Pays a Fine**  
**LOS ANGELES (AP)** — Dino Martin, the 19-year-old son of Dean Martin and an entertainer in his own right, has paid a \$184 fine for speeding and failing to appear in court.

Martin received the ticket on a freeway May 13. On Jan. 5 he pleaded guilty. Municipal Court Judge Alan Campbell set the fine Tuesday. The young rock musician wasn't in court, and his lawyer paid it.

**Young Martin Pays a Fine**  
**LOS ANGELES (AP)** — Dino Martin, the 19-year-old son of Dean Martin and an entertainer in his own right, has paid a \$184 fine for speeding and failing to appear in court.

Martin received the ticket on a freeway May 13. On Jan. 5 he pleaded guilty. Municipal Court Judge Alan Campbell set the fine Tuesday. The young rock musician wasn't in court, and his lawyer paid it.

Only one filly has ever won the Kentucky Derby—Regret in 1915.

## County Farms Using More Fertilizer

**Hempstead County farmers** used a total of 4,240 tons of commercial fertilizer from July 1, 1969, through June 30, 1970. This is quite a large tonnage and is a one-third increase over the previous year, but does not reflect the overall picture on fertilizer use for the county, says W. R. Vandivere, associate county Extension agent.

The difference, he said, is the use of a tremendous amount of chicken litter on farms in the county. Most of this, of course, is applied to pastures.

Hempstead County is listed as one of the major poultry producing counties in Southwest Arkansas. According to the Arkansas County Agents

the danger of avalanches in the Olympics and Cascades was extreme and it urged motorists to stay out of mountain passes

Only one filly has ever won the Kentucky Derby—Regret in 1915.

Assuming that an average of 3 tons per acre is applied each year, this makes a total of 12,611 acres fertilized each year with litter. Considerable litter is also supplied by the laying industry.

Phone 777-3431 Between 8 a.m. and 4 p.m.

## Calendar of Events

Thursday, January 28

A Ladies Bridge-Luncheon will be held at the Hope Country Club Thursday, January 28, at 12 noon. It will be catered and reservations must be made by Tuesday, January 26. Phone Mrs. Marian Holder, 777-4611, or Mrs. George Wright, 777-3839.

Cub Scout Pack 92 will hold its pack meeting Thursday, January 28, at 7 p.m. in the Brookwood School Cafeteria. All parents are requested to attend.

The Daffodil Garden Club will meet Thursday, January 28, at 1 p.m. in the home of Mrs. John Lelm. John Graves will have the program, "Wills and Estate Planning."

Friday, January 29

The First Christian Church will have a chili supper from 6:30 to 8 p.m. Friday, January 29 to help raise money for the Library Fund. Fay James will make the chili and the ladies of the church will supply the salad and pie. The Madrigal Singers from Hope High School will present a program at 7 p.m. Tickets are only \$1 each.

Saturday, January 30

A catered dinner followed by cards will be at the Hope Country Club on Saturday, January 30, at 7 p.m. Reservations must be made by Thursday, January 28. Call Mrs. K. G. Hamilton, 777-3132, or Mrs. Earl Lockett, 777-6378.

The Junior Music Club will meet Saturday, January 30 at 9:30 a.m. in the home of Mrs. C.C. McNeill.

Tuesday, February 2

The Alpha Delta Chapter, Delta Kappa Gamma, will meet Tuesday, February 2 at 3:30 p.m. in the home of Mrs. E.H. Steart with Mrs. Thomas Hays and Mrs. Joe Eason, co-hostesses.

**DUPLICATE CLUB PLAY**  
Mrs. Harry Hawthorne and Mrs. Marie C. Hendrix scored first at the Hope Duplicate Bridge Club meeting on Monday night, January 25 at the Diamond. Second were Mrs. J.L. Broach and Mrs. Syd McMath, and third were Mrs. E.J. Whitman and Mrs. E.P. Young, Jr. Four tables of players participated.

**ROCKY MOUND CLUB MEETS**  
The Rocky Mound Extension Homemakers met on Thursday, afternoon January 21 in the home

of Marie Taylor with the president, Louise Dudley, presiding. Mrs. Dudley also gave the lesson, "The Modern Way of Growing Old."

Mrs. Taylor read Psalms 23 for the devotion with Earlene Pharris offering the prayer. Club leaders were selected for the coming year. After old and new business was conducted, Faye Bright read a poem.

When the roll was called, each member answered with "What I Do to Keep Young." The meeting adjourned to meet with Louise Dudley in February.

Refreshments were served to 9 members and 7 visitors, including Thelma Messer, Cora Powers, Betty and Debbie Walker, Beth Higgason and Norma Nell Ward.

## Births

Mr. and Mrs. Gary Riddle of Little Rock announce the arrival of a son, David Lee. Maternal grandparents are Mr. and Mrs. W. L. Jackson.

Mr. and Mrs. Jerry Don Goodson of Texarkana announce the arrival of their second daughter at Wadley Hospital January 25. She weighed 7 lbs. 7 ozs. and was named Candy Ann.

Grandparents are Mr. and Mrs. Vernon Avery of Hope and Mr. and Mrs. Rufus Goodson of Nashville.

## Astronaut Thinks Crew Is Greatest

By PAUL RECER  
AP Aerospace Writer  
SPACE CENTER, Houston (AP) — Stuart A. Roosa is the folksy, "gee whiz" kid of the Apollo 14 crew, but his freckle-faced candor hides a steel core and an awesome temper.

"We're the greatest crew ever put together for a space flight," says the 37-year-old Air Force major.

Even though he won't land there, flying to the moon "is the greatest thing that has ever happened to me," he adds.

Roosa's radiating enthusiasm is in sharp contrast to the calmly deliberate approach of his crewmates, Apollo 14 commander Alan B. Shepard Jr. and lunar module pilot Edgar D. Mitchell.

Shepard and Mitchell enjoy concerts and society affairs. Roosa, the command module pilot on Apollo 14, prefers fishing with his three sons, hunting and

## Engagement Announced

—Clyde Davis photo

## MISS LYNDA JEAN O'STEEN

Mr. and Mrs. Cecil Jackson O'Steen announce the engagement of their daughter, Lynda Jean, to Lt. Barry Wayne Wilson, son of Mr. and Mrs. Berry

Washington Wilson of Dallas. Miss O'Steen received her degree from Ouachita University, where she was a member of Gamma Phi social club. Mr. Wilson also is a graduate of Ouachita and was a member of Rho Sigma social club.

Listening to Johnny Cash. While Shepard and Mitchell land on the lunar surface, Roosa will be left alone to orbit the moon in the command module. For 45 minutes out of every two hours for a day and a half, Roosa will pass over the back side of the moon, out of touch with earth and completely alone.

And as part of some photographic experiments he will conduct, Roosa must turn off the cabin lights and submerge himself and the spacecraft in that "pure blackness" a quarter-million miles from earth. Roosa doesn't flinch at the idea.

"I'm gonna take time to look at the scene and probably appreciate it. It'll probably be a good feeling," he says. "I've always preferred flying by myself."

What will he do, he was asked once, if Shepard and Mitchell become stranded on the moon's surface?

"I'd come home alone," he said without hesitation. "After I was sure there was nothing I could do to help them."

The red-haired Roosa has exhibited a fearsome temper in the past, but the spaceman has learned to hold it in. He gives a reporter at least partial credit for that.

The newsman once mentioned his temper in a story and the astronaut later told the reporter, "I'm glad you did that. It helped me a lot."

The wedding will take place March 13 in the First Baptist Church of Hope.

## Thinks Speech Was Emotional

WASHINGTON (AP) — Vice President Spiro T. Agnew says a speech by Rep. William R. Anderson, D-Tenn., defending Roman Catholic priests Philip and Daniel Berrigan from accusations by the government was "emotional, self-serving claptrap."

Philip Berrigan has been indicted by a grand jury at Harrisburg, Pa., in an alleged plot to kidnap presidential adviser Henry Kissinger and blow up federal building heating tunnels in Washington. His brother was named a coconspirator, but not a defendant.

Anderson, at a church conference in Louisville, Ky., declared Sunday the action against the Berrigans was "political repression."

In a statement Monday, Agnew commented:

"Impugning the motives of that grand jury and the investigative agencies which brought the matter to their attention—in other words, popping off for political advantage prior to the trial—is nearly as reprehensible as finding the defendants guilty before they have been tried and convicted."

## Television and Radio

NEW YORK (AP) — The women's liberation movement was the theme of two television programs Tuesday night, but both were comedies.

It appears that Hollywood's script writers—male—are not prepared to take it seriously.

One was CBS's "Beverly Hillsbillies." Grannie and Ellie May went on a strike against cooking and housekeeping for the menfolk. It was a weak and humorless attempt to capitalize on a controversial subject.

The other was an improbable romance fraught with misunderstanding on ABC's "Movie of the Week."

"The Feminist and the Fuzz" used women's rights as a device to get in a little conflict. The female revolutionaries seemed only concerned about receiving equal treatment. Barbara Eden and Jo Anne Worley were about as convincing as feminist militants as they were as lady doctors: not very.

The 90-minute program asked us to believe that a pretty young pediatrician, Barbara Eden, and a stalwart young policeman, David Hartman, converged on an apartment for rent at the same moment. Because both were desperate for living quarters, the strangers agreed to share it on a platonic basis.

The show then resembled an old, naughty bedroom farce with people dodging in and out of rooms and hiding. At one point, the doctor's father, a chiropractor, gave a treatment to a lady of easy virtue under the impression that she was his daughter's roommate.

Of course, there was no doubt through all the turmoil that the beautiful feminist would wind up in the arms of the cop. She did.

Some sequences were amusing, but there just wasn't enough plot to fill.

## Wedding Vows Are Repeated

## MRS. GRANDISON D. ROYSTON IV

The marriage of Miss Judith Laurel Thompson to Grandison Delaney Royston IV was solemnized January 3 at 4 p.m. in the Prayer Room of Berry Chapel on the Campus of Ouachita Baptist University.

The bride is the daughter of Mr. and Mrs. Guy Nathaniel Thompson of Morrilton. Parents of the bridegroom are Mr. and Mrs. Grandison Delaney Royston, Jr., of Hope.

Grandparents of the bride are Mr. and Mrs. E.T. Thompson of Morrilton and the late Mr. and Mrs. Calvin A. Black of Perryville. The bridegroom's grandparents are Dr. and Mrs.

Grandison Delaney Royston of Little Rock, formerly of Hope, and the late Mr. and Mrs. Hugh E. Nolen of Prescott.

Rev. Dan Blake officiated at the double ring ceremony in the presence of members of the immediate families and close friends.

Given in marriage by her father, the bride wore a street length dress of candlelight orchid imported silk and carried a white Bible topped by a cascade of orchids and white satin streamers.

The couple was attended by Miss Sammie Halbert of Star City and the bridegroom's

father. After a trip, the couple is at home in Arkadelphia, where both attend OBU. Mrs. Royston was a 1970 graduate of OBU and was listed in "Who's Who among students in American Colleges and Universities." He was a member of Rho Sigma Social Club.

## Coming, Going

Mark and Sandra Shields visited Mr. and Mrs. H. A. "Pete" Shields, Sr. last week while their parents, Mr. and Mrs. Shields, Jr., were vacationing aboard a yacht in the Bahamas. The trip was won in a sales promotion for Meyers Bakery.

Mr. and Mrs. Charles Tarpley returned home Monday from Morrilton and a visit with her sister, Mrs. Lois Alston.

## Bobcats in Victory Over Ouachita

By BILL MOORE  
Star Sports Writer

Dominating all but the first period last night at Ouachita, the Hope Bobcats pounded out an 82-58 victory over the Warriors in a rough and tumble game.

Coach Ross's Bobcats took a 42-27 halftime lead into the dressing room and coming back out, everyone later saw action as Hope won their 13th game against five losses.

Although falling behind, early 3-0, Hope used goals by John Dudley and Lynn Norton to trail by one with 5:23 to go.

Another two points by the Warriors forced a Bobcat timeout and immediately afterwards the Hope offense began to click.

Two field goals by Parker Powell and a layup by Dudley put Hope into the lead the rest of the way.

Changing points on almost even terms, the Bobcats held a 19-15 lead at the close of the first quarter after Dudley hit a free throw with five seconds left.

Charles Frazier and David Briggs each hit a two pointer to get the quarter started and using the inside men, Dudley and Norton, Hope later led, 38-21 with 2:29 to go in the half.

Two more baskets, a rimroller by Dudley and a shot by Powell from the free throw circle with 34 seconds left, gave the Bobcats a 42-27 margin at the midway point.

Returning to the court for the second half, Hope took the tipoff and seven seconds later, Briggs hit a 15 foot jumper. Dudley and Powell then proceeded to hit four points each to build up a 53-21 lead with 5:32 left in the quarter.

Three goals by Dudley and a driving layup by Briggs pushed the Cats lead to 64-38, with a little over two minutes left in the period.

Frazier later hit the last field goal of the quarter as Hope took a 69-45 margin into the final period, where everyone saw action.

Held at an even standoff in the final period, with both teams netting only 13 points, Hope let the reserves gain playing time, to rest their starters for Camden.

Dudley hit 29 points for the Bobcats, followed by Powell with 17, Norton hitting 15, and Briggs and Frazier each sacking eight.

Earlier, the B-Bruins fell to the Warrior B's in a close one, 59-54, after Hope had at one time held a seven point lead.

With the score being tied three times in the early minutes, Ouachita finally took an 8-6 on two straight goals as the B-Bruins hit a last minute cold streak and could only hit two points.

Moving into the second period the Warriors held a 15-8 margin, but three minutes later, Hope had used some quick shooting to jump back up and now trailed by only two, 19-17.

Buddy Ingram hit three points, and James Bradley sank a jumpshot from the circle to give Hope a 20-19 lead, and after five more points, Ingram hit two charity throws with eight seconds remaining in the half, to pull Hope to within one of Ouachita, 28-27.

That's the way the half ended and after both teams came out for the second half, Hope got the tipoff.

After Ingram hit the initial points of the quarter, the lead began to see-saw, but with 3:16 left Danny Boyette hit two baskets for a 37-33 margin, and five successive free throws lifted the B-Bruins to a 44-37 lead with only one more period to go.

However, Hope hit some cold shooting and various turnovers

and midway through the final stanza, Ouachita grabbed the lead back and coasted on in.

Ingram led the scoring with 16 points, followed by Joyce with 12, and White with 10.

Tonight the Kittycats travel to Nashville for a junior girls tournament while on Thursday the Ladycats play Mineral Springs.

## Marquette Makes It 27 in Row

By TED MEIER  
Associated Press Sports Writer

Take Johnny Dee's word for it, Rudy Benjamin of Michigan State could be a super player in pro basketball.

Dee, college basketball coach at Notre Dame, made that comment after the fighting Irish whipped the Spartans 104-80 Tuesday night in their first start since upsetting UCLA last Saturday.

Marquette, which took over the No. 1 spot in the Associated Press rankings after UCLA's fall, made it 27 in a row, including 15-0 this season, with a 106-57 romp over Northern Michigan.

Benjamin, a 6-foot-2 senior from Dayton, Ohio, scored 31 points against seventh-ranked Notre Dame. Dee said "I'll recommend Benjamin for the pros. He could be a super player."

Dee might have said the same thing about his 6-3 senior, Austin Carr, who threw in 36 points against the Spartans. He left that for Gus Ganakas, Michigan State mentor.

"Carr is just superb," said Ganakas. "You just can't keep the ball away from him."

As for Marquette's romp against Northern Michigan, coach Al McGuire said "it was a laughter, a mismatch."

"I didn't want to run up the score, but at the same time I wanted to give my starters a workout."

Dean Meminger led Marquette with 20 points as the Warriors won their 53rd straight at home.

Howard Porter scored 17 points and grabbed 20 rebounds to help 16th-ranked Villanova down Seton Hall. None of the other teams in the AP Top Twenty played.

Joe Sutter's basket in the last two seconds gave Davidson a 56-54 victory over St. John's of New York and Gary Ladd's two free throws on a one-and-one situation in the closing seconds gave Seattle a 97-96 overtime triumph over Creighton.

Ohio U. beat Cincinnati 92-82 to give Jim Snyder, coach of the Bobcats, his 300th career victory. Texas A&M shaded Rice 74-73, knocking the Owls out of the Southwest Conference lead.

Texas downed Southern Illinois 89-81, TCU turned back Southern Methodist 93-85 and Los Angeles Loyola tripped UC-Santa Barbara 75-66.

## University Baseball Play to Open

FAYETTEVILLE, Ark. (AP) — The University of Arkansas baseball team opens its 40-game schedule March 13 with a doubleheader at the University of Tulsa.

Arkansas will play its Fayetteville opener March 25 against Buena Vista College of Iowa and will make two Little Rock appearances — March 17 against Drake and April 24 against Memphis State.

The Razorbacks, who have 10 lettersmen returning from last year's 19-13 squad, will end their season May 15 at Fayetteville against Union University of Tennessee.

Arkansas State jumped out in front in the Southland Conference basketball race Tuesday night with a 59-51 victory over Trinity.

ASU guard Allen Pruett, who got off to a slow start, finished with 19 points to lead all scorers. Sophomore forward Steve Brooks scored 13 points and pulled down 11 rebounds.

Arkansas State raised its season mark to 7-6, despite hitting only 41 per cent from the field. The Tribe went into the game hitting 48 per cent for the season.

The Indians jumped out to an early 12-5 lead and held a 36-28 halftime advantage.

The game was marked by few fouls and both teams missed only two free throws. Southland Conference scoring leader Felix Thruston led the Tigers with 17 points — nine below his season average.

## Real Knicks Stand Up as Fans Asked

By MIKE RECHT  
Associated Press Sports Writer

NEW YORK (AP) — The Milwaukee Bucks had the misfortune Tuesday night of entering Madison Square Garden when New York fans were asking "will the real New York Knicks stand up, please."

The real Knicks responded by not only standing, but also by running, shooting and rebounding, and retained their superiority over the Bucks with a 107-98 victory in a game matching the National Basketball Association's two powerhouses.

In other games, the Baltimore Bullets edged past the San Francisco Warriors 103-98, Philadelphia beat the Atlanta Hawks 129-122, Phoenix clobbered Buffalo 114-82 and Los Angeles whipped Chicago 136-111.

In the American Basketball Association, the Floridians crushed the New York Nets 121-97, Utah outscored Pittsburgh 145-127, Memphis upended Indiana 108-102 and Kentucky nipped Texas 125-122.

"We know we can beat Milwaukee if we play our game," said Walt Frazier, recalling how the Bucks had defeated the Knicks recently in Milwaukee when Willis Reed still was not up to par after a bout with the flu.

"The fans are the ones who keep shouting for us to beat Milwaukee. We kept reading it in the press when we were going bad how Milwaukee is going to win the title this year."

The Knicks now have three straight victories, including this third triumph, in four games against the Bucks this season.

Reed was ready for this one, scoring 35 points and grabbing 15 rebounds in 47 minutes of play to win his personal duel with Milwaukee's Lew Alcindor, who leads the league in scoring and field goal percentage, hit only 11 of 32 field shots for 29 points, while hauling in 25 rebounds.

Dave DeBusschere, with 18 points and 14 rebounds, and Frazier, with 22 points, teamed to put the Knicks ahead 77-70 after three quarters.

The lead reached 93-80 before the Bucks made a final surge to within one point. But Dick Barnett started a decisive run of seven consecutive New York points with two jump shots in the final two minutes.

Kevin Loughery of Baltimore hit two baskets in the final 1½ minutes to boost a one-point lead to five. Earl Monroe led the Bullets with 26 points.

Hal Greer broke loose for 36 points for Philadelphia and closed within 18 points of the magic 20,000 career point mark.

Greer's three baskets down the stretch kept the 76ers out of danger. Pete Maravich had 34 points and Lou Hudson 31 for Atlanta.

Phoenix bolted to a 65-34 halftime bulge and coasted the rest of the way against cold-shooting Buffalo. Dick Van Arsdale paced the Suns with 23 points while Paul Long led the Braves with 19 points, 14 in the last period.

Los Angeles chalked up its fourth straight victory at the expense of Chicago and boosted its Pacific Division lead to four games. Jerry West topped the Lakers with 33 points and Chet Walker was high for the Bulls with 21.

## Odds Against Brown at San Diego

SAN DIEGO (AP) — Pete Brown will be fighting long odds and an extremely strong field Thursday when he opens defense of his title in the \$150,000 Andy Williams-San Diego Open Golf Tournament.

His chief challengers in the field of 144 include Jack Nicklaus, Masters champion Billy Casper and U.S. Open champ Tony Jacklin—the young Englishman Brown beat in a sudden-death playoff for the \$30,000 first prize last year.

"I didn't think I had a chance to win," said Brown, 35. "You just don't make up six strokes with people like Jacklin and Nicklaus in front of you."

But he did, shooting a final-round 65 to tie Jacklin and beat Nicklaus by a stroke. The playoff provided him with his first tour victory since the 1964 Waco Turner Open.

The soft-spoken, hard-hitting Brown has had some problems since the 1970 triumph, however, winning only about \$25,000. He missed the cut at Phoenix last week and hasn't finished higher than 45th in three tournaments this season.

And the odds are against a player repeating as champion. It happened only twice last year, Dave Hill at Memphis and Lee Trevino at Tucson.

Trevino, the leading money winner last year, still is out of action because of an illness in his family. Don Massengale was another late withdrawal.

Nicklaus, making only his second start of the year, always ranks among the men to beat. Casper has finished second twice in three starts this season and indicated his smooth, steady game is moving into gear with a remarkable 62 in the final round at Phoenix last week.

Gene Littler usually plays well in this event and Jacklin showed his liking for the rolling Torrey Pines Golf Club course last year. It's a seaside layout, 6,792 yards and par 72.

Some other standouts include PGA champion Dave Stockton, Larry Hinson, Bob Murphy, Dave Hill, Frank Beard, Dick Lotz and the winners of the three 1971 events, Bob Lunn, Tom Shaw and Miller Barber.

Arnold Palmer is skipping this event because of business commitments.

The final two rounds of the match Saturday and Sunday will be telecast nationally by ABC-TV.

FACE IT—Expressions often tell the story of the loser or winner in sports. The above two are winners, surprisingly enough. Randy Matson (left) is not in pain as he yells after heaving a record-breaking shot put. And Tom Shaw, though demonstrating the universal display of displeasure, is actually sticking out his tongue with delight after sinking a tricky putt.

## Practice That Makes Perfect

By THE ASSOCIATED PRESS

If there was ever a prime example that practice makes perfect, it's LSU-New Orleans. That's all the Tigers did last week, and today they find themselves on top of The Associated Press College Division basketball poll.

LSU-New Orleans vaulted from third to first, with Louisiana Tech dropping from first to fourth, Southwest Louisiana remaining second and Kentucky State moving from fourth to third.

The nationwide poll of sports writers and sportscasters gives LSU-New Orleans, 13-0, six first-place votes and 254 points. Southwestern Louisiana got three first place votes and 249 points, Kentucky State two firsts and 217 points and Louisiana Tech three firsts and 195 points.

While LSU-New Orleans was practicing, not playing, Louisiana Tech was losing two of three games and Southwestern Louisiana and Kentucky State both were winning single starts.

Ashland moved from seventh to fifth; Fairmont State, 14-0, the only other unbeaten team in the Top Ten and the receiver of the only other first-place vote, advanced from eighth to sixth; Tennessee State fell from fifth to seventh; Kentucky Wesleyan fell from sixth to eighth; Stephen F. Austin remained ninth and Eau Claire remained 10th.

The Second Twenty is Puget Sound, Howard Payne, Indiana State of Indiana, Moorhead of Minnesota, Old Dominion, Oral Roberts, Central State of Ohio, Central Washington, Assumption and North Carolina A&T.

Assumption and North Carolina A&T are newcomers to the Top Twenty. Elon, 17th the previous week, and Sam Houston State, which had been 19th, dropped from the rankings.

Here are the Top Twenty College Division basketball games with first-place votes in parentheses, and total points on a 20-16-14-12-10-9-8 etc. basis:

1. LSU-New Orleans (6) 254
2. SW Louisiana (3) 249
3. Kentucky State (2) 217
4. Louisiana Tech (3) 195
5. Ashland 160
6. Fairmont St. (1) 128
7. Tennessee St. 117
8. Wesleyan 100
9. S.F. Austin 81
10. Eau Claire 79
11. Puget Sound 60
12. Howard Payne 56
13. Indiana State 49
14. Moorhead, Minn. 46
15. Old Dominion 41
16. Oral Roberts 34
17. Central St. Ohio 22
18. Central Wash. 20
19. Assumption 18
20. North Caro. A&T 17

AM&N Player Is Leader in Scoring

LITTLE ROCK (AP)—Senior Gerald Lockett of Arkansas AM&N is still the leading scorer in AIC basketball. Lockett is averaging 25 points per game.

David Combs of Arkansas Tech is second with 22.7 points per game and Danny Davis of Henderson is third with 21.7.

Lockett also leads in rebounding with a 17.6 average. Billy Barnes of Southern State is runner-up in rebounds with 13.6.

## Leaders Still in 3-Way Tie in the AIC

By THE ASSOCIATED PRESS  
Arkansas Tech, Southern State, and Arkansas AM&N all scored victories Tuesday night and remained in a three-way tie for the lead in the AIC basketball standings. All three have 10-2 league records.

Tech defeated Harding 88-76, Southern State rolled over Hendrix 83-60 and Arkansas AM&N blasted Arkansas College 83-54. In other AIC action, Ouachita Baptist University defeated State College of Arkansas 100-78 and Arkansas A&M edged College of the Ozarks 82-79.

AIC scoring leader Gerald Lockett dumped in 26 points to lead AM&N to victory. The Lions led only 36-34 at the half but broke the game wide open in the second half.

David Combs scored 27 points and Tommy Shaw chipped in 20 as Tech defeated Harding. The defeat dropped Harding's league record to 1-11.

Southern State never trailed Hendrix as Al Flannigan hit his first seven field goal attempts and would up with 24 points. Glen Dalton scored 17 for Hendrix.

A&M handed Ozarks its 11th straight defeat in AIC action. The victory raised A&M's conference mark to 7-5 while Ozarks dropped to 0-11. Ozarks' John Reed, however, was the leading scorer with 31 points.

Jim Hamilton scored 27 points as Ouachita rolled over State College of Arkansas. Jim Frank led SCA with 16 points and T. J. Johnson added 15.

## College Cager Says He Was Paid Monthly

DALLAS (AP) — An established professional basketball player, who asked that his name not be used, has told The Dallas Times Herald he drew \$150 a month his senior year in college from an outside "agent" who was speculating on the player's professional career.

The player, told Blackie Sherrod, executive sports editor of the Times Herald, "I was drawing \$150 a month all during my senior year from an agent. I signed a contract with him, all legal-like."

The National Collegiate Athletic Association has ruled that signing with an "agent" is the same as signing with a professional team before college eligibility expires.

The player told this story of how agents frequented the athletic dorm of his college: "They usually call the athletic department and try to get the telephone number in the dorm or the house where you're staying. The first contact is by phone."

"Then the agent will come to see you. They usually have scrapbooks with stories about how they got a \$100,000 bonus for this player and how they negotiated for a five-year contract for that player."

"Then they'll make you a

proposition. They'll pay you \$100 or \$150 a month, or whatever, while you are playing in college and then they'll handle your contract when you are drafted by the pros.

"When you get your bonus money, you pay back all the money they have advanced you — they don't charge any interest—and then they take 10 percent of your contract from then on."

The player told the Times Herald, "I signed a contract and he (the agent) gave me a copy and told me to keep it confidential. You know, if the NCAA ever found it out, the agent would get in trouble and the school would get on probation and all."

The player said, "Lots of big-shot players already have their lawyer when they get to college. "But some of us average players, when a guy comes along and gives you \$150 a month and is gonna help you with your contract and get maybe \$20,000 more than you'd been thinking about, well, you say wow, where do I sign."

## U.S.-African Meet at Duke University

DURHAM, N. C. (AP) — Two athletes from each team will compete in a 21-event program during the United States-Pan African track and field meet July 16-17 at Duke University Stadium.

Dr. Leroy Walker, director of the meet and track coach at North Carolina Central University, announced the format Tuesday.

African nations to be represented include Nigeria, Ghana, Senegal, Ivory Coast, Cameroon, Kenya, Ethiopia, Uganda, Tunisia and Somalia.

Some events may be special invitational ones only, since the Africans don't compete in the hammer throw and do not do well in the pole vault.

All events will be finals; there will be no trials. The scoring system has not been determined.

Walker and Ollan Cassell, the Amateur Athletic Union's track and field administrator, will go to Africa in late February or early March to confer about the meet with the Supreme Sports Council of Africa.

The meet will be televised by the Columbia Broadcasting System.

## King Acquires a Veteran Center

LOS ANGELES (AP) — The Los Angeles Kings of the National Hockey League have acquired veteran center Ralph Backstrom from the Montreal Canadiens.

In exchange, the Kings gave up Gordon Labossiere and minor league defenseman Ray Fortin of Springfield of the American League.

The Canadiens then swapped Labossiere to the Minnesota North Stars for center Ray Comeau and an undisclosed amount of cash.

## Howley Thinks Morton Could Lead Team

NEW YORK (AP) — Chuck Howley thinks Craig Morton has the tools to lead a Dallas stampede back to the Super Bowl—if the struggling quarterback puts his mind to it.

Morton's erratic performances, up to and including the Cowboys' 16-13 loss to the Baltimore Colts in Super Bowl V, came up for discussion Tuesday after Howley was honored by Sport Magazine as the Most Valuable Player in pro football's world championship game.

Howley, an All-Pro linebacker who has seen Morton perform at his best and worst for six NFL seasons, refused to rap the quarterback, as teammate Lee Roy Jordan did recently at an awards dinner in Alabama. But he conceded that the strong-armed Californian wasn't the quarterback he should be in 1970.

"I feel that the level at which Craig has been playing is not the level he's capable of," said Howley, first player on a losing team to win MVP honors in the title game.

"What his problems are, I don't know. He's had a lot of injuries, but it's more than that... something within himself. Possibly, it's a mental picture. Something is handicapping him from being the great quarterback he could be."

## Jones Boys Are Hard to Keep Up With

By THE ASSOCIATED PRESS  
When the Memphis Pros win, it's usually because their opponents can't keep up with the Jones boys.

And that's the way it was Tuesday night as Steve and Jimmy Jones combined for 54 points as the Pros scored a 108-102 victory over the Indiana Pacers, the West Division leaders in the American Basketball Association.

Steve Jones gunned in 28 points and Jimmy totaled 26 and the pair led a Memphis spurt by hitting a jumper apiece after Indiana had trimmed a 16-point deficit to 95-94 with five minutes left. Mel Daniels led Indiana with 23 points.

Elsewhere, Kentucky edged Texas 125-122, Utah thumped Pittsburgh 145-127 and the Floridians thrashed the New York Nets 121-97.

In the National Basketball Association, the New York Knicks topped Milwaukee 107-98, Philadelphia outlasted Atlanta 129-122, Baltimore nipped San Francisco 103-98, Phoenix smashed Buffalo 114-82 and Los Angeles topped Chicago 136-111.

Kentucky rode past Texas behind rookie Dan Issel, the league's leading scorer who threw in 39 points and pulled down 13 rebounds. Darrel Carrier helped key a Kentucky rally by hitting 12 of the Colonels' final 26 points. Joe Hamilton paced Texas with 27 points.

With Zelmo Beaty hitting 32 points, Utah coasted past Pittsburgh, which got 26 points from George Thompson.

Seven Floridians scored in double figures in the rout of the Nets. Larry Jones showed the way with 25 points. Rick Barry topped the Nets with 30.

## Two Hockey Players Fined for Fighting

MONTREAL (AP) — The National Hockey League announced Tuesday night that defenseman Jim Dorey of the Toronto Maple Leafs and forward Ken Hodge of the Boston Bruins have been fined for their part in a fight in an NHL game in Boston Jan. 17.

Both Hodge and Dorey left the penalty bench to fight and each received misconducts and game misconducts. Hodge also shoved a linesman during the scuffle.

Hodge and Dorey each received \$100 fines for leaving the penalty box, \$50 for this misconducts and \$100 for their game misconducts. Hodge received a \$100 fine for shoving the linesman.

The fines are automatic under NHL rules.

Ted Green, the rugged Boston defenseman, received a \$200 fine for leaving the players bench during the Dorey-Hodge altercation. The fine was double the normal amount as it was the second time Green has left the bench recently to join an on-ice fracas.

## Hull's Shot Gives Black Hawks a Tie

VANCOUVER, B.C. (AP) — Bobby Hull capped a third-period power play with a 60-foot shot Tuesday night to pull the Chicago Black Hawks into a 3-3 tie with Vancouver's Canucks.

A sellout crowd of 15,569 National Hockey League fans was on hand to see Hull score his 29th goal of the season and give the Western Division leaders a 14-point lead over the idle St. Louis Blues.

Jim Pappin put Chicago in front midway through the first period, but Ray Cullen tied the score with the Hawks short-handed and 2½ minutes left in the stanza.

The Canucks took over the lead in the second period when Mike Corrigan wrapped his 10th and 11th goals of the season around a marker by Chicago's Pat Stapleton.

Vancouver's Gary Doak went to the penalty box on an interference call with 7:05 gone in the final period and the Hawks began to apply the pressure. It paid off at the 8:42 mark when Hull beat Canuck goalie Charlie Hodge, who was screened on the play.

Vancouver had three good chances to win late in the game but Chicago netminder Gerry Desjardins saved the day each time.

The game was the only one on the NHL schedule Tuesday.

## Concerned More About His Starters

By ERIC PREWITT  
Associated Press Sports Writer  
OAKLAND (AP) — If Dick Williams, the new manager, is worried how the Oakland Athletics' bullpen will do without Jim "Mudcat" Grant, he should listen to owner Charles O. Finley.

"Grant did a great job last year," Finley said Tuesday after introducing Williams at a news conference. "But he kept some of our other relief pitchers from getting a chance to show what they could do."

Finley traded Grant to the Pittsburgh Pirates for minor league outfielder Angel Mangual, in the closing weeks of the 1970 baseball season. The 35-year-old pitcher won six games and saved 24 for the A's in 72 appearances.

Williams indicated he was more concerned about his starting pitchers.

John "Blue Moon" Odom underwent arm surgery recently, and doctors say he can resume throwing next month when spring training opens.

"But anything he does this year will be a plus for us," Williams said. "I'm not counting on him."

If Odom isn't able to come back, former relievers Fingers and Diego Segui will probably be in starters again, as they were last year.

Finley announced that he had

signed 31-year-old outfielder Tommy Davis, who hit .290 in 66 games with the A's last year. Davis was sold to the Chicago Cubs in September, but they recently released him.

Williams said he plans to use Davis primarily as a pinch hitter this year.

## Play Set in Midlands International

OMAHA, Neb. (AP) — Directors of the Midlands International Indoor Tennis tournament in Omaha announced Tuesday that Cliff Richey, top-rated U.S. player, and Ilie Nastase, Romania's No. 1 player, have been seeded first in singles.

The tournament is scheduled Wednesday through Sunday. Richey, 24, won the World Grand Prix in 1970, and was ranked U.S. No. 1 for the first time this year. He has been in the top ten since he was 18, and last year took home \$97,000 in prizes. Richey at 5-9, lacks leverage, but he makes up for it with excellent placement and a variety of spins on his serves.

He is ranked No. 10 in the world.

Nastase, also 24, is ranked No. 6 in the world, and beat Richey last year at the U.S. Indoor Open at Salisbury, Md., to take the title.

Spokesmen for the tournament say he covers the court better than anyone his size—5-11—since Pancho Gonzales was in his prime. On the court, Nastase is considered a tactician who will go for the point rather than gamble for a quick win.

## 130 Skaters Trying for U.S. Title

By MARVIN R. PIKE  
Associated Press Sports Writer  
BUFFALO (AP) — More than 130 young men and women begin the quest for national titles today in the U.S. Figure Skating Championships, with a 17-year-old blonde and a 21-year-old collegian given the best chance to come out on top.

The blonde is Janet Lynn of Rockford, Ill., twice the senior women's champion. The collegian is John Petkevich of Harvard University and Weston, Mass., runner-up the last two years for the senior men's title.

Miss Lynn makes her debut Friday morning, skating the exacting figures and completes the second half of her program—free skating—Saturday afternoon.

Petkevich, beaten by non-professional Tim Wood last year, skates the figures Thursday and the free segment Friday.

The first event in the five-day program will be for the junior men's title, now vacated. Richard Ewell, 19, of Los Angeles surrendered the crown he won a year ago to compete in the senior men's event.

The remainder of today's program includes the novice men's and ladies' figures and the initial competition for the senior pairs and senior dance.

Kenneth Shelley, 18, of Downey, Calif., third in the senior

men's last year, will again team with JoJo Starbuck, also 18 and of Downey, to defend their senior pairs title. Shelley also will face Petkevich.

The Gold Dance will feature Judy Schwormeyer, 19, of Indianapolis and James Sladky, 23, of Solvay, N.Y., who will be trying for their fourth consecutive championship.

## Court Again Rules for Haywood

SAN FRANCISCO (AP)—The Ninth Circuit Court of Appeals has dealt the National Basketball Association another setback in its attempt to stop Spencer Haywood from playing with the NBA Seattle Super Sonics.

The NBA wanted a stay of a lower court's injunction allowing Haywood, 21, to play with Seattle. The appeals court refused Tuesday.

## Swede Leads Field in Monte Carlo

MONTRE CARLO (AP) — Sweden's Ove Andersson, 32, in a French Alpine Renault, today led the Monte Carlo Rally after a second stage in which ice and blinding snowstorms decimated the field.

Only 45 of the 174 cars which left here Tuesday to race through the mountains of Southern France survived what drivers described as "apalling weather."

# Golfballs Used to Lower His Taxes

SMETHWICK, England (AP) — Misplaced balls are worth almost sixpence (6 cents) each in local taxes to Philip Kelly, who lives next to a golf course.

He packed into a bag the 150 that have landed in his garden in the past 16 months and shouldered them along as evidence to his municipal tax appeal court Tuesday.

"My wife and I need tin hats to protect ourselves," he complained.

Court chairman William Homer said, "We think this is a case where what would normally be considered an amenity becomes a disability." And he reduced the annual taxes on Kelly's off-course home by 4 pounds (\$9.60) to 60 pounds (\$144).

Problem: What does Kelly now do with all those balls?

Answer: "I may join the golf club and use them to teach members how to play."

# Jasmine Stakes Split Into 2 Divisions

MIAMI (AP) — For the fourth time in six years, Hialeah's Jasmine Stakes has been split into two divisions, with Rosemont Bow and Chou Croute the early favorites in what appears the stronger half of today's six furlong race for three-year-old fillies.

Chou Croute, unbeaten in three starts, and Bright View Farm's Rosemont Bow raced to a dead heat here Jan. 18.

Both horses will carry 114 pounds in the first division.

Alma North was the early favorite in the second half with her main competition expected to come from Brandy Snap and Mia Mood.

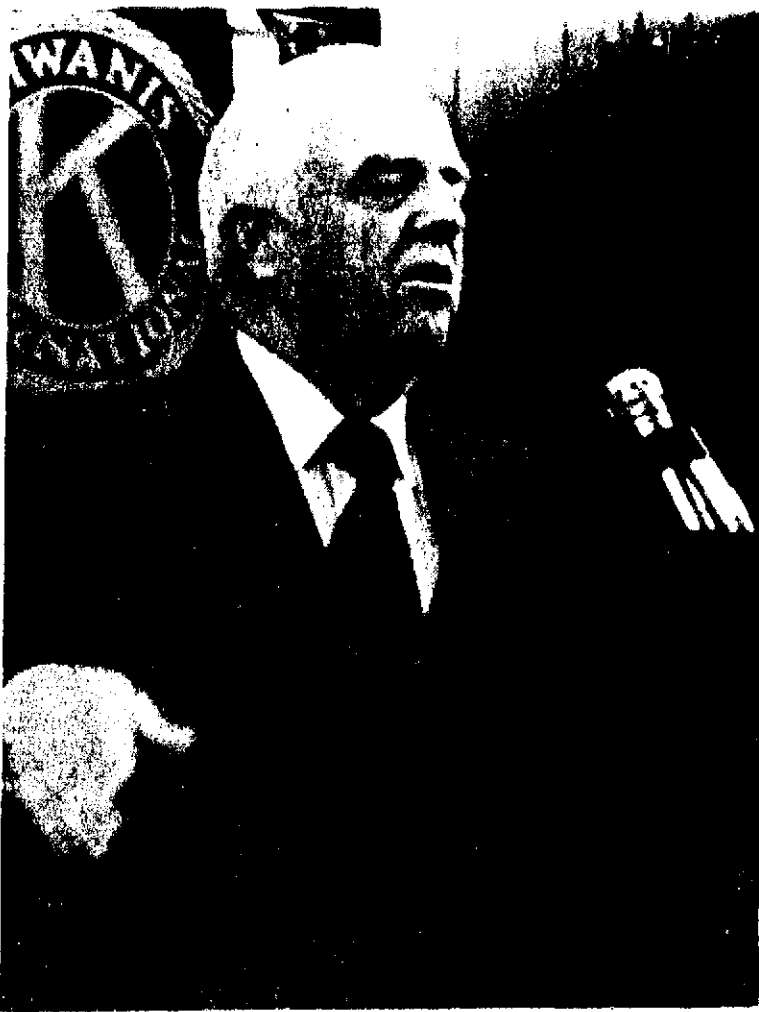

All horses in the second division were assigned 112 pounds.

With nine starters, each division will have a gross purse of \$25,450.

The Jasmine is the first important test for three-year-old fillies this year.

The Channel Islands, off the northwest coast of France, were the only British soil occupied by German troops in World War II.

# School Plight Cited

—Henry Haynes photo with Star camera  
JAMES H. JONES

School Supt., James H. Jones, was the speaker at Tuesday's Kiwanis Club meeting on a program arranged by Kiwanian Art Trout.

Mr. Jones outlined the financial plight of the Hope School System and gave some revealing figures to back his statements.

In 1929 the assessed valuation of property in the Hope District, not including the several consolidations that have taken place since 1929 was \$3,125,000. Today with the consolidations and with increased property values the assessed valuation has increased only about four times.

Recent figures show Hempstead County is the number 1 county in increased per capita income over a given period of time and now ranks about number 12 in per capita income in the State.

Mississippi and Arkansas rank at the very bottom of all the states in support of education, but to make the picture blacker, Hempstead County ranks in the lower fifteen counties in Arkansas in support of education. Teacher salaries are

\$518.00 below the state average. Only \$399.00 per pupil is being spent in educating our children, a figure that is \$37.00 below the state average.

"One hears on every hand that we are taxed to death," but said Mr. Jones, "School taxes paid in Hempstead county are not breaking us." "Who is responsible for this situation? We are," said Mr. Jones, "When we fail to assess our property fairly and refuse to vote millage support for the education of our children, we are responsible. We, you and I, can change the situation, if we really want to do the right thing by our school system."

Visitors at Tuesday's meeting were Clyde Fouse of Hope, L.B. Tooley of Dallas and Bill Arnold and visiting Kiwanian Bob Johnson of Magnolia.

the state. He maintained that the Bearden bill was clearly unconstitutional because the proposed new districts would not be as nearly equal in population as practicable. Under the measure, there would be a population variance of about 15,000 persons between the most populous district and the least populous. Walmsley has submitted a bill that would have a population variance of 3,700.

In other legislative action Tuesday:

—The Senate approved six administration changes in Bumpers' governmental reorganization bill and rejected three nonadministration amendments in a voting display that was interpreted as a sign that the measure had a good chance of passage.

—The House passed on a vote of 86-0 an administration bill from the Senate that would create a public building authority, which Bumpers has proposed in order to finance the construction of a state office building in the Capitol complex. The bill was sent back to the Senate for concurrence in a House amendment to prohibit moving a state agency housed outside Pulaski County to the proposed new office building.

Redistricting is a chore faced by the legislature this year because of population shifts reflected in the 1970 census. The 1st and 4th districts lost population in the census while the 2nd and 3rd gained. The "Alexander plan," to which the other congressmen reportedly have acquiesced, would transfer counties from the 2nd and 3rd districts to the 1st and 4th.

The counties of Fulton, Izard, Sharp, Stone and Independence would be moved from Rep. Wilbur D. Mills' 2nd District to Alexander's 1st District. Saline County, now in Rep. David Pryor's 4th District, would be moved to the 2nd.

Baxter County would be transferred from the 2nd to the 3rd District of Rep. John Paul Hammerschmidt. Third District counties of Howard, Pike, Sevier, Little River and Hempstead would be assigned to the 4th District.

Walmsley and Rep. Paul Henry, also of Batesville, have been the principal opponents of the plan. They want to prevent the movement of their home county of Independence from the 2nd to the 1st District and introduced their own redistricting plan that would maintain the county's present status.

The bill proposed a population variance of about 13,000 persons. Walmsley subsequently reducing the variance to 3,700 after the attorney general's office said the state was required to make a "good faith" effort to draw congressional districts as nearly equal in population as possible in order to meet the U.S. Supreme Court's one-man, one-vote requirement.

Sen. Jim Caldwell of Rogers has said he also will introduce a redistricting bill, but he has not submitted the measure yet.

Only slight visible opposition, chiefly from Sen. Guy H. "Mutt" Jones of Conway, appeared Tuesday when sponsors of Bumpers' reorganization bill

# Measures Would Give Assistance to Many for Medical Bills

By GREGG HERRINGTON  
Associated Press Writer

WASHINGTON (AP) — Federal assistance to Americans faced with spiraling medical costs, particularly for the so-called catastrophic illnesses, is being pushed in Congress with three bills being introduced so far.

The latest move was introduction Tuesday of a bill to provide middle-income Americans financial protection against very expensive illnesses.

Sen. J. Caleb Boggs, R-Del., one of three Senate sponsors, said the measure provides for creation of "pools" by existing private insurance companies. Their cumulative resources would make them rich enough to offer reasonably priced medical insurance previously too expensive for middle-income families.

"The federal role," Boggs said, "would be limited to re-insuring, where necessary, private insurance companies or insurance pools against loss."

An aide to the chief sponsor of a similar House measure, Rep. Lawrence J. Hogan, R-Md., explained that situation would come about only if there were so many very expensive illnesses among policyholders at one time that the pool could not pay all the bills.

Hogan's office said a family brought the measure up for amendments proposed by the administration. The bill passed the House 92-4 last week.

Jones sought to amend the bill to maintain Senate confirmation of all appointees now subject to it, but he failed four short of the 18 votes he needed for adoption. He gave notice that he would seek another vote on the amendment.

Sen. W. D. Moore Jr. of El Dorado offered two unsuccessful amendments. One would have moved the state Library Commission from the reorganization plan. The other would have provided that the state Board of Education would retain all its present powers and duties with a director, appointed by the board, vested with all powers and duties presently assigned the commissioner.

Approved by the Senate were administration amendments that would place the Liquid Petroleum Gas Board in the Division of Utilities of the Commerce Department rather than in the Labor Department and give division status to the state Plant Board.

Another amendment that was adopted would place the Geological Commission under the Commerce Department's Division of Natural Resources. Also approved was a change placing the Office on Aging in the Department of Social Services rather than in the Planning Department.

A fifth amendment would provide that the director of the Department of Higher Education would be appointed by the Board of Higher Education, with consent of the governor, rather than simply appointed by the governor.

Another amendment would eliminate language that would have transferred inventory, planning and development functions of the state Board of Health to another department.

Pending for the Senate's consideration are six more amendments.

The Senate approved on a vote of 31-0 and sent to the governor a bill to enable 18 year olds to vote in Arkansas for the offices of president and vice president. The measure implements the federal law giving 18 year olds the vote in federal elections.

The Senate approved 33-0 and sent to the House a bill providing a staff of eight for the governor's mansion for the remainder of the fiscal year.

The senators passed on a vote of 29-0 a bill by Sen. Q. Byrum Hurst of Hot Springs that would eliminate the cost limitation on municipal improvements districts. Present law stipulates that a district's improvements cannot exceed in cost 80 per cent of the assessed valuation of property in the district.

The House passed 79-1 a bill by Sen. W. K. Ingram of West Memphis to permit daylight racing at the Southland greyhound dog track at West Memphis on Memorial Day, July 4th and Labor Day.

The mark is the monetary unit of West Germany.

# LEGISLATIVE (from Page One)

transition. We must, at this point, say a word of praise for the interest and work of Congressman Hammerschmidt in representing our district. He has asked me to assure the people of Hempstead County that he will continue to work for the good of the county with Congressman Pryor and that we should look upon the redistricting as providing "two representatives instead of just one." Congressman Pryor is most anxious to visit the county and I know he will represent us with the same energies which has made him so respected in other counties of his district.

**Turnpikes & Banking**  
Last week the Senate approved the turnpike bill—authority for the State Highway Commission to participate financially in the building and maintaining of toll roads. No one questions the need for improved highways in western and southwestern Arkansas, but the financing of a toll road is most complex. As you know, the Governors of Missouri and Oklahoma joined Governor Bumpers on Monday for a discussion of this matter.

As a member of the House banking committee I have been involved in the most delicate task of making a decision on the "registered bank holding company" issue . . . the bill presented to the House would stall the move toward registered bank holding companies in Arkansas by freezing at its present level the one bank now involved in the operation, and would prevent the formation of any new holding companies. I have talked with all three of the bankers in our county and they are opposed to the growth of bank holding companies at this time. The difficulty in making a decision comes from the old adage that there are two sides to every question. "FABCO" interests say that bank holding

Wednesday, January 27, 1971 companies are essential to the continued growth of the Arkansas economy while supporters of the bill limiting holding companies say that independent banking would otherwise soon disappear. I will support the bill to limit holding companies, due to the wishes of the banks in my constituency and I believe this measure needs further study as to the effects holding companies would have on the Arkansas Banking Industry.

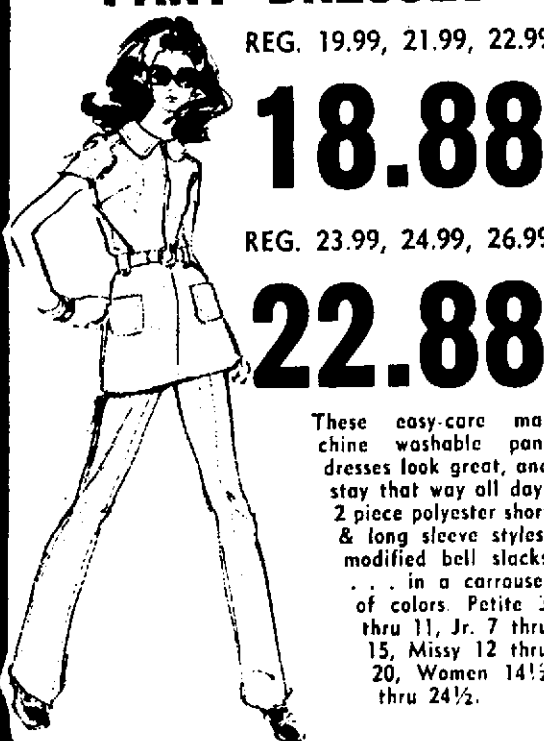

In our next column we will look at some of the legislation now pending in House committees, including: consumer protection; merit system for state employees; a presidential primary; the 18-year-old vote in national elections; scholarships for placing more doctors in rural areas; educational services for exceptional children; home rule for cities; and preservation of natural areas.

Again, let me say how pleased I am that the people in our county have been so good to call or write and let us know your feelings on the various issues before the house or on needed legislation which should be considered by the House. No amount of speechmaking replaces the views of the people in our county who are affected by proposed legislation—the people who work in an area of concern and who know the day to day problems and needs of our county and state. Our thanks to those of you who take the time to be interested and involved in your government . . . on behalf of all citizens of Hempstead County.

**Success Story**  
Asa Griggs Candler studied medicine, became a pharmacist and developed a prosperous wholesale drug business before purchasing the formula for Coca-Cola in 1887 and selling the business in 1919 for \$25 million, according to Encyclopaedia Britannica.

## It Certainly Pays to Pay Your Bills

If you used credit during 1970 to pay for a new car, furniture and household appliances, clothing and a multitude of other items, your purchases represented a portion of more than 123 billion dollars—the total consumer installment debt in the U. S. in 1970.

During the 70's, financial experts predict that disposable personal income will rise by well over 50 per cent. Consumers are expected to use an increasing portion of this higher income in installment purchases, with total consumer installment debt rising to about \$200 billion by 1980.

Credit has become a mainstay of the nation's economic system, and gives Americans the highest standard of living in the history of the world.

When consumers honor their debts, the credit economy rolls along smoothly.

But what happens if consumers don't pay their bills? The retailers, wholesalers, manufacturers and producers raise their prices—and the consumer suffers because he must pay more for his purchases. Unfortunately, the higher prices affect those who pay their bills faithfully, as well as the delinquent consumers.

For this reason, the American Collectors Association and its 2600 member agencies are sponsoring National Pay Your Bills Week, February 1-5, with the slogan, "It Pays to pay your bills."

"It Pays to pay your bills"—it gives you financial security; it helps keep prices down; and it gives you a healthier economy in which to live and prosper.

## Biblical Ships Sought in Gulf of Aqaba

BELMONT, Mass. (AP) — Scientists spurred by an Old Testament story will use electronic devices to probe the silt beneath the Gulf of Aqaba for the ships of King Solomon, who ruled Israel a thousand years before Christ.

"The Book of Kings tells over and over again of a fabulous trading center called Ezion Geber. No one knows where it was exactly, but the Bible tells of a fleet of ships going down there in a great storm," says Robert Rines, president of the American Academy of Applied Science, and scientists from Britain, the United States and Israel will explore an area in the gulf off Israel.

They will use mud-penetrating sonar devices and metal detecting gear to try to locate the remains of ships which once brought Solomon the profits and luxuries of commerce from India, southern Arabia and Ethiopia.

"If the fleet was covered quickly by silt, then we hope it should be pretty well preserved," Rines said. "If we find evidence of anything, then divers will go down."

"History shows the area also was used by the Crusaders, so even if we don't go as far back as Solomon we are hopeful of finding something," he said.

## ABC Evening News with Howard K. Smith and Harry Reasoner

## HOPE (ARK.) STAR, Printed by Offset Settlement Is Ordered

PHILADELPHIA (AP) — The Pennsylvania Supreme Court has ordered the Curtis Publishing Co. and former showgirl Lillian Reis, who won a libel suit against the company for a 1963 Saturday Evening Post article, to meet in court to determine terms of settlement.

The court said a new trial was not necessary to resolve the amount Curtis is to pay Miss Reis for libeling her in an article entitled "They Call Me Tiger Lil."

Miss Reis was awarded \$1,825,000 in the first judgment, but Common Pleas Court Judge Joseph Gold reduced it to \$415,000.

## Manson May Testify in Penalty Phase

By LINDA DEUTSCH  
Associated Press Writer

LOS ANGELES (AP) — With their lives hanging in the balance, Charles Manson and three women followers may testify in the penalty phase of the Sharon Tate murder trial without opposition from their lawyers, the defense legal team says.

The jury that convicted the four begins hearing testimony Thursday on the penalty. Jurors must decide between life imprisonment and death in the gas chamber.

Chief defense attorney Paul Fitzgerald, who opposed efforts by the women defendants to take the stand during the seven-month trial, says he and other lawyers won't block them any longer.

"The defendants can take the stand if they want to," he said. "It's their lives, and if they want to testify, how can we in good conscience stop them?"

The prosecution seeks the death penalty for Manson, 36, leader of a roving hippie-style tribe, and the three women, who lived in his commune. They were convicted Monday of murder-conspiracy in the bloody slayings of Miss Tate and six others.

## Uganda Thinks Neighbor Will Attack

By MARTIN ZUCKER  
Associated Press Writer

KAMPALA, Uganda (AP) — The leader of Uganda's military coup charged today that neighboring Tanzania "is preparing to come and attack Uganda" in an attempt to restore President Milton Obote to power.

"I am preparing myself to welcome them," Maj. Gen. Idi Amin told newsmen with a laugh. "We shall be very happy to meet them."

Obote took refuge in Dar es Salaam, the Tanzanian capital, after Amin deposed him Monday while the president was attending the Commonwealth conference in Singapore.

Amin met the newsmen on the porch of his residence and apologized for canceling a news conference. He explained that he had just received intelligence reports that an attack from Tanzania was impending.

Obote had refused to tell newsmen in Dar es Salaam Tuesday whether he had asked President Julius Nyerere of

**SUPER COOPERATION** among the health department, medical society and community organizations on "German Measles Sunday" in Charlottesville, Va., resulted in immunization of nearly 12,000 children—almost 100 per cent of the target population. March of Dimes volunteers alerted area residents about hours and locations of vaccination posts. Public health education aimed at prevention of birth defects is a major March of Dimes effort.

## Information on Social Security

By KEN HARGIS

If you have any questions regarding social security, I invite your letters. Just send them to Ken Hargis, Social Security Administration, P.O. Box 1319, Texarkana, Texas 75501.

Q. My neighbor is receiving disability benefits due to loss of one of his legs. He is unable to wear an artificial leg, so any work he does must be done in a seated position. He would like to learn a trade where he could work sitting down, but friends tell him he will lose his social security benefits if he does. Is this correct?

A. The social security law provides a trial work period without loss of benefits for persons like your neighbor. This is an incentive to help disabled people to try to return to work. If your neighbor does start to work and continues to work, his and his family's benefits may be continued for up to one year after he starts back to work. The State Vocational Rehabilitation office will help your neighbor to learn a new trade if this is possible with his disability.

Q. I entered a hospital that does not participate in the Medicare program. It was not an emergency and I had to pay the bill. Will Medicare help with this expense?

A: If you have the Medical Insurance coverage under Medicare you may request reimbursement for diagnostic laboratory and X-ray expenses that you had in the hospital. You should request payment on Form SSA-1483 (available at your social security office) from Medicare, attaching an itemized bill to your request.

Q. How old does a disabled worker have to be to receive disability benefits?

A: There is no minimum age, but a minimum amount of work is required. If a person becomes disabled before age 24, he needs credit for one and one-half years of work during the three years just before becoming disabled. If disability occurs between ages 24 and 31, he needs work credits for half the time after age 21 and before becoming disabled. For a disability that begins after age 31, credit for five years of work in the last ten years before the onset of the disability is needed.

Q: I have heard the terms "Medicare" and "Medicaid" but do not know the difference. Please explain.

A: Medicare is the term used to describe health insurance for the aged under social security. There are two parts to Medicare—Hospital Insurance (Part A) and Medical Insurance (Part B). Medicaid is the term used by the State Department of Public Welfare for its health insurance program for persons receiving public assistance payments.

## Nun Refuses to Testify, Is Jailed

By PAT KEITH  
Associated Press Writer

HARRISBURG, Pa. (AP) — A 52-year-old nun named as a co-conspirator in an alleged bomb-kidnap plot spent the night in jail for refusing to testify before a federal grand jury even though granted immunity.

Erect, white-haired Sister Jagues Egan was judged in contempt Tuesday when she declined to answer most of about 60 questions put to her by the jury.

"I have a duty to obey my conscience and my principles," Sister Jagues said after Judge R. Dixon Herman of U.S. District Court ordered her placed in the custody of a U.S. marshal. She was held overnight in the York County Prison.

The nun's attorney, Jack Levine, said he would appeal Herman's ruling to the 3rd Circuit Court of Appeals in Philadelphia as soon as possible, "perhaps today."

Judge Herman told Sister Jagues she could get out of jail as soon as she agreed to testify "within the life of the grand jury." The jury could sit up to 18 months.

The New York nun told the court: "I have no desire to stand in contempt of this court, but I must obey my conscience and I have no desire to stand in contempt of a court which I believe is higher than any court of the United States."

She had asserted earlier, first in a statement to newsmen, then repeatedly before the grand jury, that her appearance was prompted by illegal wiretapping evidence and that the government had bugged the telephone calls of the Roman Catholic Church in both this country and Rome.

## BLONDIE

Q—How did grapefruit get its name?  
A—This arose from the fact that the fruit on a heavily laden tree often suggests a huge cluster of grapes.

**Q—Which is the most famous steeplechase horse race in the world?**  
**A—The Grand National,** run each year at the Aintree race course, near Liverpool, England. Horses must be at least six years old to enter this race of four miles, 856 yards.

## Bucksaw Barbwire

—Hope (Ark.) Star photo

Recently Gordon Prescott, County Surveyor, came across a few strands of old "Bucksaw Barbwire" near the Yancy Community, between Columbus and Washington.

Mr. Prescott said the wire was over 100 years old, being made before the Civil War. The original wire was made by plotting two strands of wire

around a metal strip that looks like a Bucksaw blade.

The old Washington Foundation has some of the wire on display and it is valued at \$10.00 per foot by collectors.

Mr. Prescott is quite an authority on early history in this area, having found the Daniel Boone rock north of Washington about 10 years ago.

### YOUTH ASKED FOR IT!

This column is for young people, their problems and pleasures, their troubles and fun. As with the rest of Helen Help Us!, it welcomes laughs but won't dodge a serious question with a brush-off.

Send your teenage questions to YOUTH ASKED for it, care of Helen Help Us! this newspaper.

### A BEAUTIFUL PUT-DOWN

Dear Helen:

You know the type: The woman who has everything and calls attention to it by "worrying" about her perfection. She spends more time on her face than I do on my whole family. Her skin is flawless, every eyelash perfect. She's entirely in love with herself.

And she's always making less endowed girl friends aware by "seeing a tiny blemish in the mirror; then we're supposed to respond with lavish praise.

Please tell me a good put-down, next time she ogles herself with those gorgeous orbs and asks, "What do you DO for bags under your eyes?" when she expects me to exclaim, "What bags?" — TIRE OF BEING MRS. STOOGE

Dear Tired:

Tell her to wear an "eye-bra," says my husband, Bob — H.

Dear Helen:

Five months ago, Tony and I were married after knowing each other three weeks.

Today a letter came in the mail and I opened it by mistake. It was from a lawyer in Ohio, and it contained a legal paper for Tony to sign so that he may obtain his final divorce decree.

I'm afraid to show it to him, as this means we aren't married, and maybe he wants it that way. He is a perfect husband, but do I really know him? I knew there was a former wife, but assumed he was free. Maybe he thought so, too — I hope!!

If I seal the letter up I may never know the truth. If I tell Tony I "snooped," he may hate me. Either way, will we have to get married again? And will he want to? — NOT QUITE A WIFE

Dear Not:

Tell Tony the truth and expect the same from his. A "perfect husband" (almost) won't let you down, though it may require another ceremony to make him perfectly legal. — H.

Dear Helen:

Why is it that my wonderful, strong, handsome husband isn't normal?

I mean any normal male of 24 would be satisfied with looking at baseball and football games on TV, playing golf or tennis. But my man is some kind of nut who flirts with danger. He skis on impossible trails, plays La Crosse, surfs, skin dives — and his last announcement of sky diving is the final blow.

How can he do this to me? I'm all worried out after only six months of marriage. Will he ever become that non-athletic guy I

want for a husband and father of our children, or should I join him and we can at least die together? — SUSAN

Dear Susan:

Is your husband really a danger freak, or are you a chicken?

I'd guess there's a little of both in your family, and the only solution is compromise. Get involved in his sports and perhaps some of your caution will rub off on him — especially after he becomes a father. — H.

Dear Helen:

Joining the battle to stop polluting our streams with detergent and enzyme foam, I tried "reading the labels to see which was the least objectionable. Completely frustrated, I picked up a box of soap granules — and lo, I discovered the true wasday miracle: SOAP!

Now, just as my mother did, I am using soap for my washing, reveling in the whiteness and softness of the clothes and enjoying the good clean odor so reminiscent of my childhood.

This is an ecology commercial! — M.I.

## U.S. Bobsled Team Makes Changes

By ENRICO JACOMINI

CERVINIA, Italy (AP) — Pat Martin, manager of the United States bobsled team, has dropped his No. 1 driver from the trials for the world four-man championships in this Italian alpine resort today following a string of accidents and poor performances.

Martin, from Massena, N.Y., was unable to line three four-man crews because of the accidents that have crippled his team. He then decided to start Harry Petersen of Pottersville, N.Y., and Lester Fenner, of Peru, N.Y., today and leave Paul Lamey, from Manchester, N.H., at the pits.

Lamey, who had come here as America's top man, had two terrible runs on Tuesday. He was clocked in 1:23.21 and 1:33.78 minutes over the 1,540-meter course in the two heats.

This was far above the 1:14.42 by Petersen and the 1:17.38 and 1:15.39 by Fenner, both getting their first tests outside the sole American course at Lake Placid, N.Y.

Lamey has not had a convincing run since breaking his nose in an accident during the trials for the two-man event nine days ago.

Petersen, however, was also involved in an accident. He overturned Tuesday in the second heat and was unhurt. But crewman Dave Dunn suffered bad rib contusions and was out of the championships. Brake-man Phil Duprey had ankle and wrist contusions.
